

Interview Script

Opening

Reporter:

"We're here with Syracuse Women's Lacrosse after their 2025 season, taking a closer look at the numbers. Let's break down the stats with some of the key players and the coach."

Segment A – Total Games

Reporter:

"Coach, first things first — how many games did the team play this season?"

Coach:

"We played 19 games in total, which gave us plenty of opportunities to test our strengths and grow as a team."

Segment B – Top Goal Scorer

Reporter:

"Emma Muchnick, you finished as the top scorer. How does it feel to lead the team with 34 goals?"

Emma Muchnick:

"It feels amazing. I just focused on taking quality shots and helping the team whenever I could."

Segment C – Most Assists

Reporter:

"Emma Ward, you had the most assists this season — 46 in total. What was your mindset?"

Emma Ward:

"My goal was always to set up my teammates. Creating plays was just as rewarding as scoring myself."

Segment D – Most Points

Reporter:

"You also led the team in overall points, finishing with 76. How do you balance scoring and assisting?"

Emma Ward:

"It's all about reading the game. Sometimes I take the shot, sometimes I pass — it depends on what gives us the best chance to score."

Segment E – Team Totals

Reporter:

"Coach, looking at the team totals, you had 234 goals, 112 assists, and 346 points. What do these numbers tell you?"

Coach:

"They show balance. We weren't just relying on one or two players — the whole roster contributed."

Segment F – Most Efficient Scorer

Reporter:

"Sam DeVito, you were the most efficient scorer, converting 67 percent of your shots. What's your approach?"

Sam DeVito:

"I try to be selective and patient. It's not about taking every shot, but making the right ones count."

Segment G – Draw Controls

Reporter:

"Coach, the draw controls per game showed mixed results, with Joely Caramelli averaging just over 2 per game. How important was that to your strategy?"

Coach:

"Winning draws gives us possession, which is critical. Joely gave us consistency in that area, and it set the tone for a lot of matches."

Segment H – Ground Balls

Reporter:

"Emma Muchnick, you also made an impact defensively, averaging 1.42 ground balls per game. How did you approach that side of the game?"

Emma Muchnick:

"I just wanted to fight for every loose ball. Ground balls often decide momentum, so it was about effort and hustle."

Segment I – Turnovers

Reporter:

"Turnovers are always tough. Emma Ward, you had 2.16 per game, while Muchnick and Vogelmann followed close behind. How do you handle that as starters?"

Emma Ward:

"Turnovers happen when you're pushing the pace. The key is learning from mistakes and making sure they don't hurt the team."

Segment J – Clutch Performer

Reporter:

"Caroline Trinkaus, you earned a reputation as the clutch player, with 4 game-winning goals. How do you handle those big moments?"

Caroline Trinkaus:

"I thrive on pressure. When the game's on the line, I just focus and trust my instincts."

Segment K – Defensive Impact

Reporter:

"Finally, on defense, Joely Caramelli posted the best net defensive impact, averaging positive turnover differentials. Coach, how do you see that contribution?"

Coach:

"Defense wins games. Joely gave us reliability in forcing turnovers and minimizing mistakes that's invaluable."

Closing

Reporter:

"That wraps up our season recap. Congratulations to the Syracuse Women's Lacrosse team on a strong 2025 season, and we look forward to seeing you back on the field next year."
